

Centra Vascular Surgery

Centra vascular disease specialists offer surgical and nonsurgical treatments for **blood vessel problems** such as peripheral artery disease and abdominal aortic aneurysm. Blood vessel problems may be a complication of other medical conditions. Our vascular surgeons partner with other doctors, including wound care specialists, throughout Centra to help manage symptoms and prevent life-threatening complications.

VASCULAR SURGERY PROCEDURES

- Carotid endarterectomy
- Dialysis access surgery
- First rib re-section
- Vascular bypass surgery
- Aortic Aneurysm repair

ENDOVASCULAR SURGERY PROCEDURES

- Angioplasty and stenting
- Endovascular/peripheral aneurysm repair (EVAR/PVAR)
- Thoracic endovascular aneurysm repair (TEVAR)
- Thrombectomy
- Thrombolysis
- Transcarotid artery revascularization (TCAR)
- Fistulagram with intervention

COLLABORATIVE NONSURGICAL MEDICAL CARE

- Open sores on the lower legs or feet
- Swollen, painful leg veins
- Limb amputation
- Condition monitoring by vascular disease specialist

CENTRA

Heart & Vascular Institute

Referrals To Vascular Surgery

Descending aortic aneurysms

- Abd US or Computed tomography angiography (CTA) abd / pelvis

Carotid stenosis

- Carotid US

Peripheral vascular disease

- Lower extremity arterial duplex or Ankle brachial index (ABI)

To make a referral, go to

www.StroobantsCardiovascular.com

** Please send imaging reports with referral

** DVT, refer to Cardiology

Our Team Of Vascular Surgery Providers

David Cassada, MD
Vascular Surgeon

Albert Pavalonis, DO
Vascular Surgeon

Shane Clary, NP

James Marcouillier, PA

Dale "Skip"
Scanlan, PA
Lead

CONDITIONS TREATED

- Aortic dissection
- Abdominal aortic aneurysm (AAA)
- Carotid artery disease
- Critical limb ischemia
- May-Thurner syndrome
- Median arcuate ligament syndrome
- Mesenteric ischemia
- Peripheral artery disease (PAD)
- Peripheral vascular disease (PVD)
- Pulmonary embolism
- Renal vascular disease
- Subclavian steal syndrome
- Thoracic aortic aneurysm
- Thoracic outlet syndrome
- Varicose veins
- Venous ulcers

Heart & Vascular Institute

VASCULAR TESTS AND TREATMENTS

- Angioplasty
- Ankle/brachial index (ABI) tests
- Aortoiliac duplex scans
- Arteriograms
- Carotid artery duplex scans
- Carotid endarterectomy
- Dialysis access surgery
- Endovascular aneurysm repair
- First rib removal
- Inferior vena cava (IVC) filter placement
- Intravascular lithoplasty
- Intravascular ultrasound
- Lower and upper extremity physiologic studies
- Mechanical thrombectomy
- Peripheral angiograms
- Rotational atherectomy
- Stent placement
- Surgical vein stripping
- Surgical venous ligation
- Thrombolysis
- Transcarotid artery revascularization (TCAR)
- Venograms
- Venous angiograms
